

**LEGAL SERVICES TRUST FUND PROGRAM
2013-2014 GRANT YEAR**

**QUALIFIED SUPPORT CENTERS
Instructions for Completing Proposed IOLTA Budget Forms**

Rule 3.680(E)(3) of the Rules of the State Bar requires that within 30 days after notification of a proposed allocation of funds, applicants must submit a budget and budget narrative for the expenditure of that allocation.

The forms must give a clear description of how your organization will spend the grant. Trust Fund Commission members will use these forms, along with your application materials, to evaluate whether your proposed budget complies with the Trust Fund Program statute.

Please submit **two printed copies** with **original** signatures and email all completed forms of your proposed budget for the use of your tentative grant award during the 2013-14 grant year in their original Word and Excel format to trustfundprogram@calbar.ca.gov.

There are six forms to complete:

- A. Describe the services and activities that will be funded with this grant, and explain how this funding fits into your overall budget planning.
- B. Describe a project or activity in which your organization has been working in coordination with other support centers and/or provider(s) of legal services for low-income people. Provide a narrative response that addresses each of the questions listed at 1(a) through 1(e). Also describe your organization's plans to participate in additional collaborative efforts, with special regard to outreach, policy and strategic planning.
- C. If you receive funding from sources other than the Trust Fund Program to provide support services to qualified legal services projects, you must provide assurance that the services funded with the Trust Fund grant are in addition to those already funded by other sources (Business & Professions Code §§6216(c) and 6223, and Eligibility Guideline 2.4).
- D. If your organization provides services other than free support services to qualified legal services projects in California:
 - ☐ Explain how you will ensure that your Trust Fund Program grant is not spent to support those other activities, and
 - ☐ Describe the systems you will use to account separately for the use of Trust Fund money (Business & Professions Code §§6216 and 6223).
- E. Form E is for actual budget figures.

Ordinarily, the Commission expects you to budget 75% or more of the grant for personnel costs, and 75% or more for program costs. If your budget deviates from these standards, include an explanation on Form F, and explain why the Commission should approve an exception in your case. **Be sure to answer question 30** at the bottom of the page.

- F. Explain how you arrived at the amounts on each line of Form E. Explanations for all allocations should indicate whether the grant is being used to pay for specific items or is being allocated to line items on a percentage or formula basis.
- ☐ If money is being allocated to fund particular positions, the explanation for each personnel allocation (lawyers, paralegals or other staff) should specifically identify each position and the full-time equivalent that this grant will fund. If your personnel allocations represent an across-the-board share of all personnel costs, identify the number of positions to be funded in each category and the full-time equivalent for each category.
 - ☐ If you propose to allocate this grant to fund an across-the-board share of non-personnel expenses, identify the percentage and the basis for the percentage. If not, state specifically how you arrived at the amount on each line and what percent it represents of your total expenses for that category.

PROGRAM/ADMINISTRATION

Form E asks for an itemization of funds budgeted for “program” and “administration.” The general distinction between the two kinds of expenditures is as follows:

Program expenses include the cost of personnel, personnel-related, and non-personnel items directly related to the provision of support services to qualified legal services projects, including any specialized services necessary for the disposition of legal matters.

Administration expenses are those portions of personnel, personnel-related, and non-personnel costs supporting general office operations, rather than legal program expenses.

Reminder: Consistent with the kinds of services provided by your organization, the Commission prefers that 75% or more of the funds be allocated to program and personnel expenses. The form will automatically calculate personnel/non-personnel and program/administration percentages using the figures at lines 9, 26 and 27.
